

FLAGSTONE & SLABS

Silver Quartzite Flagstone

DESCRIPTION

Silver Quartzite presents a cool interplay of light gray, silver, and pale taupe tones woven through a crystalline structure. Its surface reflects subtle metallic highlights, giving it a clean, modern presence without losing its natural depth. The stone’s fine layering and soft shimmer create a composed, balanced look that complements both minimalist and transitional design styles.

STONE THICKNESS:

1 1/2in - 2in, 3/4in minus, 2" minus
